

**FOMENTO**  
MEXICANO

## Fomento Mexicano para el Desarrollo Sustentable, A.C.,

(Mexican Promote for Sustainable Development)

It is a non-profit civil association that seeks to improve the living conditions of the disadvantaged sections of the Mexican population

The **mission** of Fomento Mexicano, is to achieve the sustainable development

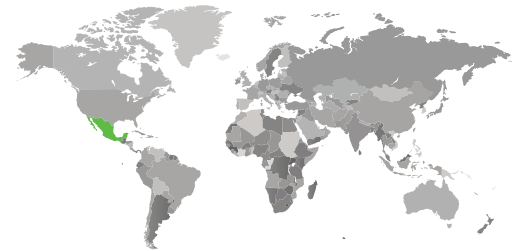

of Mexico through 4 main axes: **i) Promote Infrastructure, ii) Promote Food Security, iii) Promote Environmental Safety and iv) Promote Support**

### #Fomento Infraestructura (Promote Infrastructure)

There are **1,441 million** people in the world who do not have access to energy services.

In Mexico **3,410,000 people** do not have access to the power grid, and an even greater number do not have access to basic and reliable power infrastructure.

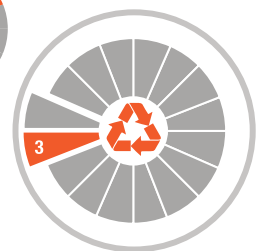

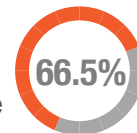

### #Fomento Seguridad Alimentaria (Promote Food Security)

In Mexico **66.5%** have food insecurity when in conditions of extreme poverty.

Mexican fields produce more than **31 million metric tons** of food, with more than **6 million of those going to waste**.

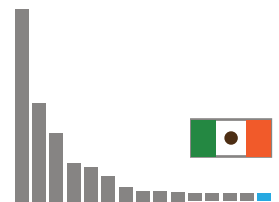

If we could recover half of that food, **3 million Mexicans** would stop being malnourished.

**This is in our hands!**

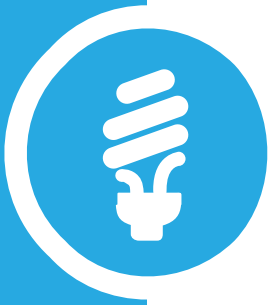

### #Fomento Ambiental (Promote Environmental Safety)

In Mexico, the total Greenhouse emissions were more than **665 million metric tons** of carbon dioxide, resulting in Mexico being one of the top 15 countries with largest emissions in the world.

### #Fomento Apoyo (Promote Support)

But also in Mexico there are a lot of us who want to see our country grow through its people. This is how **Fomento Mexicano para el Desarrollo Sustentable** (Mexican Promote for Sustainable Development) came to be, an NPO which seeks to **improve the living conditions of vulnerable segments of society**.

*Promote*  
INFRASTRUCTURE

We work with the most vulnerable communities, seeking to improve their living and production standards.

*Promote*  
ENVIRONMENTAL  
SAFETY

We search to create conscience of the environment in which we live, as to take better care of it for ourselves and for generations to come.

*Promote*  
FOOD  
SECURITY

We aim to fulfill the minimum food and nutritional requirements of the least favored collectives.

*Promote*  
SUPPORT

We know, that the same as in Mexican Promote, others also need a helping hand and resources; it is because of this that we support other causes to make them become a reality.

The supporting pillars of Mexican Promote translate into initiatives and high impact projects, and are founded on a short, medium and long term vision.

We strive for Mexicans to commit to a workable and fair balance between environment and development, and to guarantee a sustainable future for our country and the living beings who inhabit it.

*Mexico and the Mexicans need you, join and contribute with us!*

@FomentoMexicano
